EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Arguments

1. The terminal disclaimer filed on 30 August 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,763,687 has been reviewed and is accepted. The terminal disclaimer has been recorded.
2. Applicant's arguments in view of the Amendment after Final Action, filed 30 August 2004, with respect to the rejections of claims 35-41 under 35 USC 112 & claims 1-6 & 34-59 under obviousness-type double patenting, have been fully considered and are persuasive. All previous rejections have been withdrawn.

Allowable Subject Matter

3. The closest prior art of record, U.S. Patent No. 5,647,231 to Payne *et al.*, discloses storing laundry parameters of a laundry appliance electronic control system in a re-programmable memory. However, Payne *et al.* fails to teach each and every limitation of the instant invention. Specifically, Payne *et al.* fails to teach or suggest the claimed washing machine having a control system (first microcomputer, interface section and memory) configured to store operational history data of the washing machine and a second microcomputer coupled to the control system and configured to upload the stored operational history from an external device, download new operation parameters, and store the newly downloaded parameters to the memory device, for the purpose of allowing a user

with the capability to collect and store operational wash data and download a plurality of new washer operation parameters from the external source based on the operational wash data collected.

4. For at least the foregoing reasons, claims 1-6 & 34-59 (renumbered as claims 1-32) are believed to recite patentable subject matter.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
